OVERVIEW OF INDIAN MATTRESS INDUSTRY

There has been a significant transition in the Indian Mattress Industry from a largely unorganised one to one in which the organised market has developed to a great extent. There has been annual growth rate of 8-10% over the past 5 years in this industry because of rising urbanisation, increase in income, increase health related issues and awareness about sleep.

The organised sector constitutes about 33-35% of the total market, the rest of which is unorganised. Sheela Foams accounts for 20-23% of this organised segment as of 2015-2016.

OBSERVATIONS

- ➤ Sheela Foams is the market leader in the organised sector in the Indian Mattress Industry.
- ➤ It has almost negligible debt and this debt is decreasing every financial year coupled with increase in Shareholder's funds.
- ➤ The promoter holding of the company stands at 95.88% which is huge and this symbolises the confidence that the promoters have in the company and that the IPO was done to raise money for the expansion of business.
- ➤ CAGR of Revenue is 12% and that of profit is 62% over a period of 5 years which is extraordinarily good for a company which is the market leader in its industry.
- Excellent growth rate coupled with increase in income, urbanisation and increasing awareness regarding health will act as a catalyst in the growth of the organised sector in this industry.
- ➤ The risk factors involved in this company are not only limited to this company but to all the companies in this sector.
- Sheela Foams has some litigation cases pending against them but so does every huge company does have some litigation pending against them and what helps the cause of Sheela Foams is that the amount involved in the litigation is negligible in respect to the shareholder's funds.

CONCLUSION

Sheela Foams is a good buy and the price of the share is expected to increase in the future.
